Next Developments

Table of contents

1. Overview

The next tools to develop based on JPL.

2. Future development

• Digester and Fragmenter by decoupling Fas2MS with possible piping support.

3. Potential Developments

3.1. MzXML Writer

Just a writer with correct offset indices value computed for each scan.

3.2. MzXML File Splitter

The Wed, April 14, 2010, Andreas Quandt was interested in a mzxml file splitter (see the next potential dev in the [io](io) package).
